Colorado Springs, CO

PROFESSIONAL SUMMARY University graduate with a BS in Software Development with software internship experience, looking to apply my knowledge of software development to solve business problems.

SKILLS

- Java
- JavaScript
- SQL
- Git
- GitHub
- HTML5
- CSS
- C++
- Game Engines
- Command Line Interface

EXPERIENCE **FREELANCE WEB DEVELOPER** 11/2022 – Present
Designed & deployed static website with +20 product listings to Colton's Reptile's satisfaction leading to further opportunities leveraging HTML5, CSS, JavaScript, Hugo Framework, Visual Studio Code, SSL, and LiteSpeed.

MARKETING INTERN 03/2021- 09/2021
Performed functional testing on Pikes Peak Small Business Development Center's website and delivered findings in a 3-page report with actionable items regarding the user experience and graphic design from a marketing perspective.

SOFTWARE ENGINEER INTERN 05/2020 – 08/2020
Interning with Maxar, I utilized my skills in HTML, CSS, JavaScript, jQuery, jQuery Mobile, OpenLayers API, Eclipse, and Git. I received approval for a 2-phase project plan that I created and presented to refactor the frontend of a legacy web application using jQuery 1, OpenLayers, & jQuery Mobile (alpha) to CSS3, jQuery 3, & OpenLayers 5.

BACKEND JAVA INTERN 06/2019 – 08/2019
At SoftwareXpress, I worked with Java, JUnit, Eclipse, Git, GitHub while pair programming with another intern to produce clean and unit tested Java code.

EDUCATION **Bachelor of Science in Software Development** 01/2023
Western Governors University
